EDUCATION

FAST National University of Computer and Emerging Sciences (FAST-NUCES)

Jan 2027

Bachelors in Computer Science • GPA: 2.6

EXPERIENCE

Full-Stack Developer

Aug 2022 – Jan 2027

FAST-NUCES Academic Projects, Islamabad, Pakistan

- Developed full-stack web applications using React, Node.js, Express, and MongoDB.
- Built AI-powered and workflow-driven software solutions as part of academic and personal projects.
- Implemented authentication, REST APIs, database integration, and cloud deployment workflows.
- Worked in team environments using Agile and Scrum methodologies.

PROJECTS

Lost and Found Management System

Feb 2025 – Apr 2025

- Developed a full-stack Lost and Found Management System.
- Implemented Scrum-based software development practices.
- Designed user-friendly workflows and interaction features.
- Built modules for reporting, tracking, and managing lost items.

PrepAI

Mar 2026 – Jul 2026

- Built PrepAI, a full-stack AI-powered interview preparation platform using React, Node.js, Express, and MongoDB.
- Implemented resume upload and parsing for PDF/DOCX files with ATS-style resume analysis and job description matching.
- Designed and developed a deterministic ATS scoring engine that evaluates technical skills, keywords, projects, and educational background using explainable weighted scoring algorithms.
- Developed personalized mock interview functionality with resume-aware question generation and answer evaluation.
- Implemented secure JWT authentication, protected routes, file validation, rate limiting, and cloud deployment using Vercel, Render, and MongoDB Atlas.
